> ABOUT BPJ

WHO WE ARE

Barker Phillips Jackson (BPJ) is one of the largest, most established independent insurance agencies in Southwest Missouri. Springfield has served as our headquarters since 1960. We've since added satellite locations in Rolla and WestPlains.

We're 100% ESOP-owned, and our average staff tenure is 13+ years. We take good care of our team. We'll help you do the same.

OUR STRUCTURE

BPJ's services are divided into four major areas: Commercial, Bonding, Employee Benefits, and Personal. Our team is made of specialists in each area. The real upside? All your confidential info remains right here, at one agency.

Our comprehensive coverage allows us to protect both business and personal assets for owners and key staff.

HOW WE'RE DIFFERENT

BPJ representatives take a thorough look at your business risk and analyze your options. We can develop a plan to help you avoid risk, transfer it to insurance companies, or retain and manage it.

Insurance is only one part of a risk management plan, and should not be your only source of risk management. We take a proactive view of your business and a long-term approach when developing your risk strategy.

OUR ROLE

What do we do to help your team?

We help manage your total cost of risk. We make your account attractive to the insurance marketplace. We improve your mindset on risk. We become part of your trusted advisory team; you communicate with us during the decision-making process, and we inform you of insurance conditions and trends.

"When I thought about changing insurance companies, I contacted Rob Dickerson. I knew Rob has been working on this program and I was tired of the company I had used for the last ten years, prices going up and service going down. I sent my information to Rob and he offered a quote savings of \$3000 for our six northwest stores. It was a no brainer and easy—something we can all appreciate."
